Tasty treats in North Tacoma

This place is great - good sandwiches and light entrees with very fresh ingredients. Soup of the day and salads make a nice addition, and a nice glass of wine or the Rosewood Red (brewed especially for this establishment) rounds it out perfectly. The owner works on site, and he and his staff are friendly and helpful. If you're lucky and hit the cafe at the right time, you can catch a good art show from local artists, and/or live music from area musicians.

I did once have a sandwich that I didn't care for, but that was one experience out of several. [04 Feb 2006 19:19:13]
